

# Grid® Report for Certificate Lifecycle Management (CLM)

Winter 2026

## Certificate Lifecycle Management (CLM) Software

G2 Grid® Scoring

(Certificate Lifecycle Management (CLM) Software continues on next page)

# Certificate Lifecycle Management (CLM) Software (continued)

## Certificate Lifecycle Management (CLM) Software Definition

Certificate lifecycle management (CLM) and PKI software help companies with the process of authenticating and encrypting information using digital certificates. Public key infrastructure (PKI) is a cryptography framework that secures digital communication and protects data, devices, machines, and people from impersonation, unauthorized interception, tampering, or other attacks. The main benefit of this software is that it provides visibility and automation throughout the certificate lifecycle—certificate issuance, discovery, inventory, provisioning, deployment, securing, monitoring, renewal, and revocation. CLM and PKI software often replaces manual certificate management methods, such as tracking on spreadsheets, which helps companies prevent unplanned system downtime and system vulnerabilities stemming from errors or certificate expiration.

CLM and PKI software provide capabilities for the issuance, management, and automation of digital certificates, including but not limited to [SSL & TLS certificates](#), client authentication certificates, digital signature, and SSH certificates. Use cases for PKI and CLM software include user authentication, machine-to-machine authentication for servers and containers, digitally signing code and documents, encryption and integrity for IoT devices, and much more.

To qualify for inclusion in the Certificate Lifecycle Management (CLM) and PKI category, a product must:

- ▶ Automate CLM, including discovery, inventory, provisioning, deployment, securing, monitoring, renewal, and revocation (some vendors will offer certificate issuance solutions via public certificate authority or private PKI functionality)
- ▶ Provide centralized visibility, control of, and reporting on certificates, keys, and ciphers
- ▶ Monitor and notify administrators when certificate expiration dates are nearing or use workflow to automatically take a specified action, such as certificate renewal or revocation
- ▶ Support certificates from multiple certificate authorities (CAs)

## Certificate Lifecycle Management (CLM) Grid® Scoring Description

Products shown on the Grid® for Certificate Lifecycle Management (CLM) have received a minimum of 10 reviews/ratings in data gathered by November 04, 2025. Products are ranked by customer satisfaction (based on user reviews) and market presence (based on market share, seller size, and social impact) and placed into four categories on the Grid®:

- ▶ Products in the Leader quadrant are rated highly by G2 users and have substantial Market Presence scores. Leaders include: [Sectigo Certificate Manager](#), [Keyfactor Command](#), [SecureW2 JoinNow](#), [Keyfactor EJBCA®](#), [AppViewX CERT+](#), and [SSL.com](#)
- ▶ High Performing products have high customer Satisfaction scores and low Market Presence compared to the rest of the category. High Performers include: [Akeyless Platform](#) and [Userify](#)
- ▶ Contender products have relatively low customer Satisfaction scores and high Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Contenders include: [Cloudflare Application Security and Performance](#), [Azure Key Vault](#), [Google Cloud Certificate Authority Service](#), [AWS Certificate Manager](#), [DigiCert CertCentral](#), and [Microsoft Active Directory Certificate Services \(AD CS\)](#)
- ▶ Niche products have relatively low Satisfaction scores and low Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Niche products include: [TrackSSL](#), [ZeroSSL](#), and [Keystash](#)

# Grid® Scores for Certificate Lifecycle Management (CLM) Software

The table below shows the Satisfaction and Market Presence scores that determine product placement on the Grid®. To learn more about each of the products, please see the profile section.

## Leaders

	# of Reviews	Satisfaction	Market Presence	G2 Score
<a href="#">Sectigo Certificate Manager</a>	67	95	91	93
<a href="#">Keyfactor Command</a>	63	82	89	85
<a href="#">SecureW2 JoinNow</a>	32	87	68	77
<a href="#">Keyfactor EJBCA®</a>	34	85	65	75
<a href="#">AppViewX CERT+</a>	42	61	80	70
<a href="#">SSL.com</a>	10	50	53	51

## High Performers

<a href="#">Akeyless Platform</a>	12	63	42	52
<a href="#">Userify</a>	18	52	16	34

## Contenders

<a href="#">Cloudflare Application Security and Performance</a>	54	41	89	65
<a href="#">Azure Key Vault</a>	10	38	85	61
<a href="#">Google Cloud Certificate Authority Service</a>	32	33	89	61
<a href="#">AWS Certificate Manager</a>	12	39	74	57
<a href="#">DigiCert CertCentral</a>	14	44	57	51
<a href="#">Microsoft Active Directory Certificate Services (AD CS)</a>	11	9	78	43

(Grid® Scores for Certificate Lifecycle Management (CLM) Software continues on next page)

\* Products are ordered by G2 Score. Satisfaction score is used as a tiebreaker if two products have the same G2 Score.

# Grid® Scores for Certificate Lifecycle Management (CLM) Software (continued)

The table below shows the Satisfaction and Market Presence scores that determine product placement on the Grid®. To learn more about each of the products, please see the profile section.

## Niche

	# of Reviews	Satisfaction	Market Presence	G2 Score
TrackSSL	30	37	31	34
ZeroSSL	37	12	40	26
Keystash	15	13	6	10

\* Products are ordered by G2 Score. Satisfaction score is used as a tiebreaker if two products have the same G2 Score.

# Grid® Methodology

## Grid® Rating Methodology

The Grid® represents the democratic voice of real software users, rather than the subjective opinion of one analyst. G2 rates products from the Certificate Lifecycle Management (CLM) category algorithmically based on data sourced from product reviews shared by G2 users and data sourced from third parties.

Technology buyers can use the Grid® to help them quickly select the best products for their businesses and to find peers with similar experiences. For sellers, media, investors, and analysts, the Grid® provides benchmarks for product comparison and market trend analysis.

## Grid® Scoring Methodology

The Grid® Report for Certificate Lifecycle Management (CLM) | Winter 2026 is based on reviews collected through November 04, 2025. We apply unique algorithms to this data to calculate Satisfaction (v4.0) and Market Presence (v7.0) scores for the Winter 2026 report quarter. To view the Certificate Lifecycle Management (CLM) Grid® with the most recent data, please visit the [Certificate Lifecycle Management \(CLM\)](#) page. For more details on Grid® Scoring, please view the [G2 Scoring Methodology here](#).

## Grid® Categorization Methodology

Making G2 research relevant and easy for people to use as they evaluate and select business software products is one of our most important goals. In support of that goal, organizing products and software companies in a well-defined structure that makes capturing, evaluating, and displaying reviews and other research in an orderly manner is a critical part of the research process.

To manage the process of categorizing the software products and the related reviews in the G2 community, G2 follows a publicly available [categorization methodology](#). All products appearing on the Grid® have passed through G2's categorization methodology and meet G2's category standards.

Many terms that appear regularly across G2 and are used to aid in product categorization warrant a definition to facilitate buyer understanding. These terms may be included within reviews from the G2 community or in executive summaries for products included on the Grid®. A [list of standard definitions](#) is available to G2 users to eliminate confusion and ease the buying process.

## Rating Changes and Dynamics

The ratings in this report are based on a snapshot of the user reviews and third-party data collected by G2 up through November 04, 2025. The ratings may change as the products are further developed, the sellers grow, and as additional opinions are shared by users. G2 updates the ratings on its website in real time as additional data is received, and this report will be updated as significant data is received. By improving their products and support and/or by having more satisfied customer voices heard, Contenders may become Leaders and Niche sellers may become High Performers.

## Trust

Keeping our ratings unbiased is our top priority. G2 follows defined community guidelines to ensure privacy, and authenticity for users and reviews. For more details, please view the [G2 Community Guidelines here](#).

(Grid® Methodology continues on next page)

\*\*Net Promoter, Net Promoter System, Net Promoter Score, NPS and the NPS-related emoticons are registered trademarks of Bain & Company, Inc., Fred Reichheld and Satmetrix Systems, Inc.

# Grid® Methodology (continued)

## Grid® Inclusion Criteria

All products in a G2 category that have at least 10 reviews from real users of the product are included on the Grid®. Inviting other users, such as colleagues and peers, to join G2 and share authentic product reviews will accelerate this process.

If a product is not yet listed on G2 and it fits the market definition above, then users are encouraged to [suggest its addition](#) to our [Certificate Lifecycle Management \(CLM\) category](#).

## Product Profiles

Product profiles and detailed charts are included for products with 10 or more reviews.

# Sectigo Certificate Manager

4.6  (87)

Sectigo Certificate Manager has been named a Leader based on receiving a high customer Satisfaction score and having a large Market Presence. Sectigo Certificate Manager has the largest Market Presence and received the highest Satisfaction score among products in Certificate Lifecycle Management (CLM). 98% of users rated it 4 or 5 stars, 87% of users believe it is headed in the right direction, and users said they would be likely to recommend Sectigo Certificate Manager at a rate of 92%. Sectigo Certificate Manager is also in the SSL & TLS Certificate Tools category.

\*N/A is displayed when fewer than five responses were received for the question.

\*\*A blank box indicates that a seller has selected that they do not offer that feature.

# Additional Data for Certificate Lifecycle Management (CLM)

The table below includes a breakdown of the customer segments for each product, as represented by G2 reviewers.

## Customers by Size

	Small Business (50 or fewer emp.)	Mid-Market (51-1000 emp.)	Enterprise (>1000 emp.)
<b>Sectigo Certificate Manager</b>	9%	45%	46%
<b>Keyfactor Command</b>	2%	10%	89%
<b>SecureW2 JoinNow</b>	3%	53%	44%
<b>Keyfactor EJBCA®</b>	12%	29%	59%
<b>AppViewX CERT+</b>	5%	21%	74%
<b>SSL.com</b>	60%	30%	10%
<b>Akeyless Platform</b>	27%	18%	55%
<b>Userify</b>	28%	17%	56%
<b>Cloudflare Application Security and Performance</b>	80%	17%	4%
<b>Azure Key Vault</b>	10%	20%	70%
<b>Google Cloud Certificate Authority Service</b>	34%	44%	22%
<b>AWS Certificate Manager</b>	17%	58%	25%
<b>DigiCert CertCentral</b>	43%	29%	29%
<b>Microsoft Active Directory Certificate Services (AD CS)</b>	18%	45%	36%
<b>TrackSSL</b>	47%	27%	27%
<b>ZeroSSL</b>	70%	22%	8%
<b>Keystash</b>	67%	27%	7%
<b>Average</b>	31%	30%	39%
